PROFESSIONAL SUMMARY

AI and Python Developer with practical experience in Machine Learning, Generative AI, FastAPI, Retrieval-Augmented Generation (RAG), Vector Databases, and modern web development. Skilled in developing intelligent applications using Python, FastAPI, React, SQL, and NoSQL databases.

TECHNICAL SKILLS

Programming

- Python
- OOP
- Data Structures

AI / ML

- Machine Learning
- Generative AI
- LangChain
- RAG Systems
- Hugging Face
- Embeddings
- Vector Databases

Frontend

- React.js
- HTML5
- CSS3
- JavaScript

Backend

- FastAPI
- REST APIs
- Authentication

Databases

SQL

- MySQL
- PostgreSQL

NoSQL

- MongoDB

Vector DB

- FAISS
- ChromaDB

Tools

- Git
 - GitHub
 - Postman
 - Jupyter Notebook
 - VS Code
-

PROJECTS

RAG Chatbot

- Developed document-based chatbot using Retrieval-Augmented Generation.
- Implemented semantic search with embeddings.
- Built conversational AI workflow.

Tech Stack: Python, LangChain, FAISS

AI Attendance Assistant

- Built AI-powered attendance management solution.
- Integrated backend APIs with frontend dashboard.
- Implemented automated attendance analytics.

Tech Stack: FastAPI, React, MongoDB

PDF Knowledge Assistant

- Developed intelligent PDF querying system.
- Used embeddings and vector search.
- Enabled context-aware responses.

Tech Stack: FastAPI, Hugging Face, ChromaDB

INTERNSHIP

AI/ML Intern

- Worked on machine learning pipelines.
 - Built AI-powered APIs.
 - Assisted in model deployment and testing.
-

CERTIFICATIONS

- Python Programming
 - Machine Learning
 - Generative AI
 - FastAPI Development
 - LangChain Fundamentals
-

EDUCATION

Bachelor's Degree in Engineering
